Couple 2: Cock

Pollux is a pure **Janssen Arendonk**, bred by ourselves out of two originals. Pollux is the son of our famous old blue Janssen hen "Zacht Blauw" (see "a legendary hen... up front) and her regular cock "Blue Star Janssen" (Couple 1). As such he is the brother to many top breeders and racers who have brought many fanciers success in countries all over the world.

Couple 2: Hen

Schoon Bont 29 is not a Janssen hen but an original Ludo Claessens, Putte, Holland. This Dutch grandmaster, the conquerer of Orleans, is so famous worldwide that he hardly needs any introduction. For a brief discussion of all his top results alone we would need another volume like this catalog. Schoon Bont 29's father is "Blauwe Bonte Bliksem" out of "Bliksem" x "Grote Kop Duivin". Her mother is "Grote Katoog Duivin", a daughter of "Rode Katoog", one of the top birds of the Claessens loft. On mother's side we find other famous names such as "Late Donkere" and "Spierke". Schoon Bont 29 was only raced as a young bird. Basketed 9 times she won 8 prizes, 5 of which were in the top 10%. Although she's not a Janssen, she's frequently mated to Pollux, and therefore featured on this page. When Pollux is not mated to Schoon Bont 29 his hen is **144/06** (no picture available at this time). This is a hen we bred ourselves out of 482/02 (see Couple 1, hen) and "Blauwe Mariën". The latter was partly descendant on father's side from the Janssen Arendonk lines of Late Blauwen and Goede Jaarling '72, but perhaps more importantly, he was a grandson of the famous "Vooruit" of Flor Vervoort.
